

DOXSTAR® PRO TANK-MIX COMPATIBILITY IN ESTABLISHED GRASSLAND

PLEASE ENSURE YOU READ THE NOTES SECTION BELOW
This version supersedes all previous editions

BOLD CAPITALS = Physically & Biologically Compatible	<i>(Italics in brackets)</i> = Sprayable with Continuous Agitation	Red on Blue = PHYSICALLY INCOMPATIBLE
Normal = Physically Compatible	(BOLD ITALICS IN BRACKETS) = Biologically compatible - maintain constant agitation	RED CAPITAL ON BLUE = CROP INJURY

Herbicides

Lontrel 600	THISTLEX			
Shield Pro				

Trace Elements

Bortrac 150	Fertileader Magnum	Mn/Cu 322	
Coptrel 500	Magphos K	(Nutrifast 2-1-1)	
(Craplift)	Mancozin	(Seniphos)	
Cu Pholate	Mancoflo	Stopit	
Hydromag 330	Manganese Liquid	Zintrac 700	
(Hydrophos)	Mantrac 500		

This summary sheet provides information on tank-mixes conducted with this product. Corteva Agriscience™ gives no warranty or accepts no liability in respect to compatibilities that are beyond the label. This additional information is for guidance purposes only and use is at grower's risk.

Important Note: Do not use any tank-mix if the mixture cannot be applied within the recommendations for individual products or if specific tank-mix restrictions apply.

Larger, more complicated mixes; unlisted mixes or replacing alternative products to those listed in this table are not endorsed. However, for further information or to register a tank-mix request please contact your local Corteva representative or call the Technical Hotline on 0800 689 8899.

Physical compatibility data is based on the results of an industry recognised standard test. Be aware that in the field, water hardness, PH, temperature etc. can vary. Biological compatibility data are based on a small number of field trials, Corteva Agriscience™ cannot warrant the efficacy of other tank-mix partners. Where only Physical Compatibility or Spray able with Continuous Agitation is shown, Corteva Agriscience™ has no biological data regarding efficacy or crop safety and only has data on physical compatibility, so growers use these mixes at their own risk.

Note-
Mixes with phenoxy-containing herbicides are not supported with Doxstar® Pro as there is an interference effect on deep-rooted weeds such as docks and thistles with the potential to compromise weed control.

Alterations:
18th Sept 24 - List reviewed and withdrawn products removed, address updated.

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
