This summary sheet provides information on tank-mixes conducted with this product. Corteva Agriscience™ gives no warranty or accepts no liability in respect to compatibilities that are beyond the label. This additional information is for guidance purposes only and use is at grower's risk.

Important Note: Do not use any tank-mix if the mixture cannot be applied within the recommendations for individual products or if specific tank-mix restrictions apply.

Larger, more complicated mixes; unlisted mixes or replacing alternative products to those listed in this table are not endorsed. However, for further information or to register a tank-mix request please contact your local Corteva representative or call the Technical Hotline on 0800 689 8899

Physical compatibility data is based on the results of an industry recognised standard test. Be aware that in the field, water hardness, PH, temperature etc. can vary. Biological compatibility data are based on a small number of field trials, Corteva Agriscience™ cannot warrant the efficacy of other tank-mix partners. Where only Physical Compatibility or Sprayable with Continuous Agitation is shown, Corteva Agriscience™ has no biological data regarding efficacy or crop safety and only has data on physical compatibility, so growers use these mixes at their own risk.

Please ensure that the sprayer is thoroughly cleaned before and after spraying Korvetto with a proprietary spray tank cleaner or bleach containing 5% hypochlorite

Notes:

** Fox Tank-mixing Guidance Information - We can confirm Korvetto and Fox are physically compatible, but stress this does not imply recommendation or support for use. We have not tested it with the addition of oil. Use of products with an EAMU authorisation are entirely at growers own risk.

Updates:

January 2020 - Addition of Angle and Skyway 285 Xpro; 18th March 2020 - addition of Kantor, Magnar and Polyactive B; 24th March 2020 - addition of Toledo + Bortrac; 15th April 2020 - Maxi-Phi Fast Root; 1st September 2020 - addition of Opte-Mag and Zoom, 1st March 2021 addition of Boson Pro

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
