

HERBICIDE

Technical Information Sheet

Palio[®] for control of wild oats, ryegrass, bromes and broad-leaved weeds in winter wheat, winter rye, winter triticale.

Key facts

Product Registration Number:	MAPP 18349			
Active Ingredient:	14.2 g/kg florasulam + 70.8 g/kg pyroxsulam			
Pack size:	1.06 Kg (4 hectares)			
Formulation:	Water Dispersible Granule			
Maximum Individual Dose:	265 g/ha			
Maximum Number of Applications:	1 per crop			
Application Timing:	GS11-32 inclusive			
Water Volumes:	100-200 Litres water/ha. Optimum 130-150 Litres water/ha			
Buffer Zone:	No Aquatic Buffer Zone Restrictions			
Spray Quality:	FINE to Medium as defined by BCPC			
Nozzles:	CFF, VPFF, Defy Nozzles			

Key Benefits

- Excellent control of wild oats, ryegrass and brome species as well as a wide range of broad-leaved weeds
- Rainfast in 1 hour
- There are no specific cultivation requirements for following crops and excellent following crop profile
- No need to plough before winter oilseed rape (except metsulfuron-methyl sequence see label)
- Physically compatible with a wide range of herbicides, insecticides and trace elements making it an excellent tank mix partner

Best Use Advice - Autumn

- Apply Palio at 265 g/ha with a Corteva Agriscience supported adjuvant:
 - Abacus, Activator 90, Biopower, Bio Syl, Buzz, Drill, Felix, Headland Fortune, Kantor, Roller, Spryte Aqua, Intracrop Tonto, Torpedo II
- Sterile and Great brome control is best achieved in the autumn Apply Palio® in a programme following an effective pre-emergence herbicide, in tank mix with a residual partner when brome is between GS 11-24 (optimal GS 11-13) see reverse
- Ryegrass control is best achieved GS 11-29
- Wild oat control is best achieved GS 11-29
 - Also good activity on tame oats optimum GS 11-24 Best control achieved pre-tillering in the autumn
 - Varietal differences in sensitivity/ optimal timing Consult Corteva Agriscience for latest varietal information
- To avoid subsequent injury to crops other than wheat, rye and triticale, spray equipment used for Palio® applications should be thoroughly cleaned with All Clear Extra
- Crops that can be sown after a crop treated with Palio:
- Autumn: Winter wheat and barley, winter oats, winter triticale, winter rye, oilseed rape, grass, winter beans, brassica plants as transplants
- Spring: Spring wheat, spring barley, spring oats, triticale, rye, spring oilseed rape, sugar beet, potatoes, grass, clover (as part of a grass/clover ley), beans, peas, maize, linseed, brassica plants as transplants, carrots, parsnips

Tank Mixing

- Palio + adjuvant is physically compatible with the following:
- Decis Protech, Hallmark Zeon, Karate 2.5 WG, Markate 50, Mavrik, Permasect 500EC
- Headland Boron, Headland Brock, Headland Mn 500, Headland Super 80
- Firebird, Hurricane, Liberator, Picona, Stomp Agua
- Refer to https://www.corteva.co.uk/tools-and-advice/tank-mix.html for further information on compatibilities and ALS joint applications

August 2023 (this version supersedes all previous versions).

Weed Spectrum

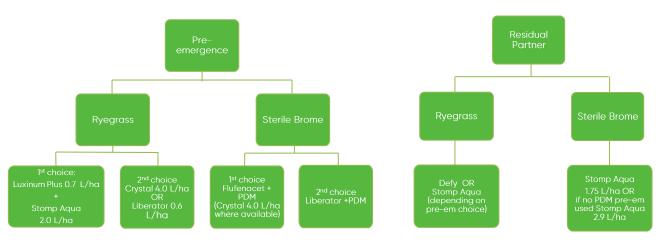

· Always use Palio in combination with an approved adjuvant

	265g/ha		265g/ha		265g/ha
Bur chervil	8 tl	Geranium spp.	8 tl	Volunteer beans	BFBV
Charlock	6 tl	Groundsel	BFBV	Volunteer linseed	6 tl
Chickweed	100 mm	lvy- leaved speedwell	6 tl	Volunteer oilseed rape	6 tl
Cleavers	150 mm	Mayweeds	8 tl	Volunteer peas	4 – 6 tl
Common field speedwell	6 tl	Mugwort	MS-150 mm	Wild radish	6 tl
Field pansy	4 tl	Рорру	6 tl		
Forget-me-not	BFSE	Shepherd's purse	6 tl		

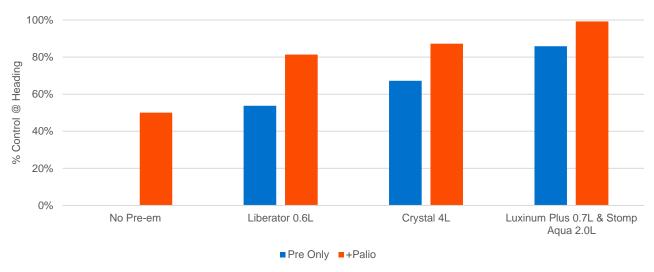

Key: bold - label weeds; BFBV - Before flower buds visible; BFSE - Before stem extension; tl - true leaves; MS - Moderately susceptible Any recommendation for off-label or anecdotal control is only indicative and should not be considered a recommendation for use on the part of Corteva Agriscience. The user assumes full responsibility for use on these weeds.

Which pre-emergence programme for which weed?

Which residual partner for which weed?

Using Palio® with Luximo® for Ryegrass control

Mean of 4 Corteva trials on LOLMU, pre-emergence application followed by Palio in spring.
