

Extension of Authorisations for Minor Use for Tracer™

Extension of Authorisations for Minor Use (EAMUs) are available to permit the use of Tracer, MAPP No. 12438 containing Spinosad, on alternative crops.

However, please note that the use of products with an EAMU authorisation are entirely at growers' own risk and Corteva Agriscience can offer no support or guidance on crop safety or effectiveness.

The table below is for awareness purposes only.

For more information on current EAMU authorisations and for the specific approval certificates see: <https://secure.pesticides.gov.uk/offlabels/search.asp>

Extensions of Authorisations for Minor Use are product specific and read-across to alternative products is not permitted.

Crop	Pest	Authorisation Number	Expiry Date
• Outdoor grapevines	• Caterpillars	20210732	15/09/2027
