

# Forefront® T Stewardship using the Corteva Grassland App

The Corteva Grassland App is available for iOS and android platforms.

Download the Grassland App from the [App Store](#) or [Google Play Store](#) [search Corteva Grassland]. Alternatively you can access all the app features and Forefront® T stewardship via the internet: <https://grassland.farming.co.uk/>

## Key app features:

- A decision tree to help you find the best product solution.
- Searchable FAQs.
- Calculate the cost of weeds in grassland.
- Get the latest information on our products.
- Manage Forefront T stewardship requirements.

## Getting ready for Forefront T stewardship reporting

When you first download the app, select advisor from the drop down menu on the registration screen to enable the stewardship feature.

If you haven't undertaken the Forefront T stewardship training module then you need to do so. This is an online course – contact [david.gurney@corteva.com](mailto:david.gurney@corteva.com) for more information and login details.

## Creating a stewardship record

1. Select the stewardship button on the home screen.
2. Click  to add a farmer client – enter farmer details (name, address, email), click 'add client' when done.
3. Once details are entered click on the farmer's name to go to the Stewardship screen form.
4. Enter the area (in hectares) to be treated with Forefront T, then press send.
5. The stewardship is generated and email copies are sent to you, your farmer client and your company HQ if applicable. The email contains the date of your recommendation, the rate of Forefront T, the area to be treated, the total amount of product, and the subsequent stewardship requirements.
6. The farmer can present the email to their Forefront T supplier to release the product.

## FAQs on Forefront T Stewardship using the grassland app

I still have one of the paper pads, can I use this for stewardship?

*No, all Forefront T stewardship must now be done via the app.*

I do not have a smartphone or tablet, how do I make a Forefront T recommendation?

*All the app features, including Forefront T stewardship are accessible from any PC at <https://grassland.farming.co.uk/>*

My farmer client doesn't have the Corteva Grassland App, can they still receive my stewardship recommendation?

*The farmer doesn't need to have the app to be able to receive stewardship recommendations – they just need to be able to receive an email – this could be on a PC or a smartphone / tablet.*

What if the farmer doesn't have an email address?

*In this situation you can use your own email address in place of the farmers email, but please note that as you will now be accepting the terms of Forefront T application on behalf of the farmer, it is your responsibility to ensure that the farmer abides by these.*

How does the product get released?

*Farmer or advisor presents the stewardship acceptance email to their point of supply, product is then released.*

If a farmer repeats and order for Forefront T, do I need to use the app again?

*Yes, each individual order must be logged.*

Can I delete a Forefront T stewardship recommendation?

*Yes, swipe from right to left on the accepted stewardship, and click revoke.*

## Summary
